Dextromethorphan
Hydrobromide

200 ml

• Oral solution for soothing
effective relief from dry,
tickly coughs

About This Product

Tesco Dry cough linctus is taken to treat dry unproductive, irritating coughs.

Warnings

Do not use:

- If you are allergic to dextromethorphan, propylene glycol or any other ingredients.
- If you have liver disease or if you are at risk of respiratory failure.
- If you are taking selective serotonin reuptake inhibitors.
- Not to be used in patients taking medications for depression, psychiatric or emotional conditions, Parkinson's disease, monoamine inhibitors or within 14 days of stopping treatment.

Ask a doctor before use if suffering from a chronic or persistent cough, if you have asthma, suffering from acute asthma attack or where the cough is accompanied by excessive secretion. Do not take with any other cough or cold medicine.

Consult your doctor or pharmacist before using this product if you are pregnant, breastfeeding or if you are taking any prescribed medicines.

The following medicines in particular (or similar) should be borne in mind; quinidine, amiodarone, flecainide and propafenone, sertraline, bupropion, methadone, cinacalcet, haloperidol, perphenazine and thioridazine.

Driving and using machines:

- The medicine can affect your ability to drive as it may make you sleepy or dizzy.
 - Do not drive while taking this medicine until you know how it affects you.
 - It is an offence to drive if this medicine affects your ability to drive.
 - However, you would not be committing an offence if:
 - The medicine has been prescribed to treat a medical or dental problem and
 - You have taken it according to the instructions given by the prescriber or in the information provided with the medicine and
 - It was not affecting your ability to drive safely
- Talk to your doctor or pharmacist if you are not sure whether it is safe for you to drive while taking this medicine.

See Further Warnings information.

CAUTION: THIS MEDICINE MAY CAUSE DROWSINESS, IF AFFECTED, DO NOT DRIVE OR OPERATE MACHINERY. AVOID ALCOHOLIC DRINK.

Further Warnings

The use of dextromethorphan with alcohol or other CNS depressants may increase the effects on the CNS and cause toxicity in relatively small doses.

Caution is particularly recommended for adolescents and young adults as well as inpatients with a history of drug abuse or psychoactive substances.

Contains E420 (Sorbitol) - if you have been told by your doctor that you have an intolerance to some sugars, contact your doctor before using this medicinal product. Contains 3.6 g of glucose per 10 ml dose. This should be taken into account in patients with diabetes mellitus. Contains E124 (Ponceau R Red) - may cause allergic reactions.
