

SUMMARY OF PRODUCT CHARACTERISTICS

1 NAME OF THE MEDICINAL PRODUCT

Benzoyl Peroxide 10% Gel

2 QUALITATIVE AND QUANTITATIVE COMPOSITION

Benzoyl Peroxide 10%.

3 PHARMACEUTICAL FORM

Gel

4 CLINICAL PARTICULARS

4.1 Therapeutic indications

All stages of acne vulgaris.

4.2 Posology and method of administration

Adults

Treatment should be initiated with Benzoyl Peroxide 5% Gel once daily. The affected areas should be washed with soap and water and then dried before Benzoyl Peroxide 5% Gel is applied. For stubborn cases treatment may be continued with Benzoyl Peroxide 10% Gel provided that Benzoyl Peroxide 5% Gel has been well tolerated. For particularly sensitive skin, Benzoyl Peroxide 5% Gel should be applied on alternate days.

Children

Not applicable.

The Elderly

Not applicable.

4.3 Contraindications

Known hypersensitivity to benzoyl peroxide.

4.4 Special warnings and precautions for use

Avoid contact with eyes and mucosae. If the skin is exposed to strong or prolonged sunlight, this medicine should be applied at longer intervals and a highly protective sun-screening agent should be used. This medicine should only be applied to dry skin to avoid unnecessary irritation.

For external use only. Care should be taken to avoid contact with dyed fabrics as this product may adversely affect dye fastness.

4.5 Interaction with other medicinal products and other forms of interaction

None Known.

4.6 Fertility, Pregnancy and lactation

The normal use of this medicine is not contraindicated during pregnancy.

4.7 Effects on ability to drive and use machines
